

BHARANIKUMAR R

Software Engineer | Full Stack Developer

📞 +91 9944827683 — ✉ kbharani98@gmail.com — [🌐 LinkedIn](#) — [🐙 GitHub](#)

PROFILE SUMMARY

Results-driven Software Engineer with 1 year of hands-on experience in full-stack development using the MERN stack. Skilled in building scalable web applications, RESTful APIs, and implementing secure systems including firewall-based access control. Experienced in deploying applications using Cloudflare and company-hosted servers. Proficient in PostgreSQL, CI/CD pipelines, and modern development tools. Passionate about writing clean, efficient code and solving real-world problems in fast-paced environments.

TECHNICAL SKILLS

Proficient: JavaScript (ES6+), React.js, Node.js, Express.js, PostgreSQL

Familiar: Java (Core), Django Web Framework, Networking Concepts

DevOps & Cloud: Docker (Containerization), Cloudflare, Server Deployment, Git and GitHub

Front-End: HTML5, CSS3 (TAILWIND CSS)

Familiar Tools: Git, Github, Gitlab, Postman, Visual Studio Code

WORK EXPERIENCE

Software Developer

Skylink Fibernet Pvt Ltd | Apr 2025 – May 2026

Key Project: Firewall-Based Web Application (End-to-End Development)

- Designed and developed a **secure full-stack web application** for firewall-based access control and request filtering
- Built responsive frontend using **React.js and Tailwind CSS**, ensuring clean UI and optimized performance
- Developed backend services using **Django**, handling authentication, authorization, and request processing
- Designed and managed relational database using **PostgreSQL**, optimizing queries for performance
- Deployed application using **Cloudflare** with company-hosted servers, improving security and availability
- Utilized **Git/GitHub for version control** and collaborated on structured development workflows
- Managed complete development lifecycle: **design** → **development** → **testing** → **deployment** → **maintenance**
- **Live Demo:** [ZForto](#)

Additional Contributions:

Company Website (Frontend Development)

- Developed and optimized frontend UI (**React.js**) for the official company website
- Improved responsiveness, layout structure, and performance
- **Live Demo:** [Skylink](#)

Inventory Management System (Team Project)

- Collaborated in a team to build and maintain an **inventory tracking system**
- Contributed to feature development, debugging, and API integration

GIS Automation Project (Python)

- Developed automation scripts using **Python** for GIS-related data processing
- Reduced manual work by automating repetitive geospatial tasks
- Improved efficiency and accuracy in data handling

PROJECTS

MINDSCRIBE BLOG WEB APPLICATION:

Dynamic Full Stack Website using React.js, Node.js and Express.js with Axios API. ([Live Link](#))

[GitHub Link](#)

- Built full-stack blog platform with authentication and CRUD features
- Developed REST APIs and responsive UI using React & Tailwind

EDUCATION

M.Sc. Computer Science

2023 - 2025

PSG college of arts and science

CGPA: 8.1/10.0

B.Sc. Mathematics

2019 - 2022

Gobi arts and science college

CGPA: 7.1/10.0

CERTIFICATIONS

MASTER FULL STACK DEVELOPMENT (MERN): *Error Makes Clever Academy*

DURATION: *June 2025 to September 2025*

INTRODUCTION TO WEB DEVELOPMENT: *Coursera (By Microsoft)*

DURATION: *4 Weeks Course*
